

Gov. Carcieri's Budget Bill...

Dangerous for
THEM

Dangerous for **US**

Dangerous for **YOU**

Unfortunately, the same Governor that has led Rhode Island to the highest unemployment rate in America and the worst budget deficit in America is up to this old tricks.

He recently proposed a supplemental budget bill to close our state's budget deficit. This legislation would immediately put every citizen in our state in danger.

- Will allow local politicians with no experience to determine what levels of police and fire protection you will receive
- Will force the immediate retirement of our most experienced fire fighters and police officers
- Will cause your home's property insurance to increase
- Will increase your local property taxes by simply shifting the tax burden from the state to your city or town

Call your legislators today and tell them to stop Governor Carcieri's **DANGEROUS budget bill.**

Tell them the Governor has already done enough damage to Rhode Island.

Proudly paid for by the 2,200 professional fire fighters who protect your state every day.
