

Directory of Union Services

Why Buy Union?

When you select goods and services from union vendors, you contribute to your community; you support fair employment practices; and you build on the foundation of quality economic development on our state. Please use this brochure to find where you can buy union in Rhode Island.

Use Your Purchasing Power

You have the power as a union member, a union supporter, and a union leader to increase the number of union members in RI. Your decisions can protect the jobs of thousands of your brothers and sisters in the labor movement. Your choices will build a stronger labor movement.

How?

Every union office and every union member and supporter should use a union printer; use union janitorial services; use a union phone system, internet and cable services; shop at union food stores; hold functions and events at facilities with union contracts; use union delivery services, etc. This directory will serve to assist you in selecting quality goods and services provided by union members.

How do you know something is union made?

In manufactured goods look for a Union Bug. These labels ensure that you are buying quality goods that were manufactured by union workers. For union services provided in Rhode Island please refer to this booklet. If you have any doubts, ask someone which union represents the company's workers. Reputable unionized firms will respect your request and be more than happy to help.

What Does "Union Labor" Mean?

A union company's workers are represented by a labor organization for collective bargaining. Workers, union representatives and management negotiate fair wages, benefits, and working conditions together, which are written into a legally binding contract. Union members elect their leaders, and hire or elect staff representatives. These staff representatives work in conjunction with union workers and the employer to ensure the terms mutually agreed upon in contract negotiations are properly carried out.

Union workers earn better wages, have better benefits, enjoy dignity and respect on the job and are able to provide greater economic stability for themselves, their families and their communities than their non-union counterparts.

This directory is intended to assist union members, political candidates and concerned Rhode Islanders in selecting quality goods and services provided by union workers. Information is as complete and accurate as possible at the time of production.
